

Instructions for using our auction system

The auction system may first seem to be very complicated but we have worked hard to make our auction system very **user friendly**. Please follow the **easy steps** to discover the auction system and feel free to contact our customer service if you find anything difficult.

Basic structure of the vehicle auction system:

1. Automobile auction

Auto auctions – All the dealer auction houses for automobiles

Auto auctions sold prices – This section provides the data of sold automobiles and statistics

Auto catalog – This section provides the specifications of various models of makers

2. Motorcycle auctions

Motorcycle auctions – Auction houses for various motorcycles

Motorcycle auctions sold prices – This section provides the data of sold motorcycles and statistics

3. Rates

Bidding price control– This section helps you set your biddings and rates

Automobile auctions

Automobile auction is simple and effective system for selling and purchasing various vehicles through dealer auction houses. Our members can take part in auctions which are held at various locations throughout all over Japan. Most of the auctions are computerized utilizing satellite network and/or are internet based. We have designed our auction system for users of all levels, from beginners to the professionals of the automotive business.

The system contains three basic forms of search vehicles:

1. Search form by makers
2. Basic search (for beginners)
3. Advanced search (for professionals and dealers)

Search by makers:

- Makers Search - [Basic Search](#) - [Advanced Search](#) -

 **Producers**

 JAPAN	 GERMANY	 USA	 ITALY	 FRANCE
DAIHATSU 6 505	MERCEDES 2 741	GM 16	ALPHA 189	CITROEN 74

In this format the selection can be made through selecting the vehicle maker, sorted by country. Each country contains list of vehicle manufacturing companies. The digit on the right side of the maker indicates the number of vehicles at the auctions at the moment.

The make and model list is displayed alphabetically sorted when you select a maker.

Again on the right side of every model you can see the numbers of each model presently in the auction.

If you further click on any model it will display the list of the vehicles currently in auctions.

Basic search form:

The basic search form includes the following features:

1. Indicates of the total number of vehicles currently in the auctions
2. Check the box if you would like to search for vehicles with left-hand steering (if unchecked then both right & left steering would be displayed)
3. Select maker (all makers are displayed alphabetically below the country of origin)
4. Select model (all models are displayed alphabetically)
5. Specify the registration year (you can specify the beginning and end of the range)
6. Select transmission type (manual or automatic transmission)

6. Specify registration year (you can specify the beginning and end of the range)
7. Select transmission type (manual or automatic transmission)
8. Specify mileage (thousand kilometer per unit – for example if you input 80 ~100, 80,000km ~ 100,000 will be displayed)
9. Select shift type (2WD or 4WD)
10. Specify the displacement or capacity of the engine (you can specify start and end range)

Search

Clear form

This menu allows you to select auction of your choice, basically there are three types of auctions (One Price [fixed price for upcoming or unsold vehicles at auction], Stock [fixed price stock] & regular auctions)

The digits below the auction indicate the number of vehicles currently in auctions.

For best results – do not set too many options for searching, as it may impose a limit on the number of vehicles matched. Begin the search with several options, and increase them gradually, if the matching vehicles are too many.

Searching from matching result – lots list:

The screenshot displays a search interface with two main sections: 'Main search' (1) and 'Advanced search' (2). The 'Main search' section includes dropdown menus for 'maker' and 'model', and input fields for 'year', 'displacement', and 'milleage, thousand km.'. The 'Advanced search' section includes checkboxes for 'No bid', 'start price USD', 'scores', 'model type', 'transmission', 'shift', 'word', and 'color'. A 'Search' button is located at the bottom of both sections.

At the top right, there is a 'Found total lots: 3942' (3) and a currency selector (4) set to 'thousand JPY'. Below this is a 'Pages: 1 2 3 4 5 6 7 8 9 10 >>' (6) navigation bar. A 'Currency: thousand JPY / Thousand korea KWR / USD / RUR' (4) selector is also present, along with 'On page: 20 50 100' (5).

The main content is a table of vehicle lots with the following columns: 'No bid', 'auction', 'photo', 'maker', 'model', 'milleage, km.', 'color', 'model type', 'start', and 'scores'. The table lists 10 vehicles, each with a small photo and a score value.

No bid	auction	photo	maker	model	milleage, km.	color	model type	start	scores

11290029	AS Members		HINO	HINO	14 000	WHITE	KKFC1JLDA	5000	4.5
00202351	AS Members		MAZDA	CAROL	19 000	SILVER	DBAHB24S	668	4.5

Lots list contain next information:

1. Menu for main search regarding the matching models of search
2. Menu for searching models through additional parameters
3. Menu for managing the fields currently displayed for further search
4. Please select date field to see the auction date and bidding time
5. Select the currency of your choice for display (please note that these figures are approximate and are updated on regular basis – actual figures may slightly differ)

6. Selection of the number of display lots per page can be made which is 20, 50 & 100
7. Browse the pages of matching lots

The screenshot shows a web interface for vehicle auctions. At the top, there are currency options: **thousand JPY**, **Thousand korea KWR**, **USD**, and **RUR**. The page number is set to **20**, with options for **50** and **100**. Below the currency, there are navigation links for pages **7**, **8**, **9**, **10**, and a double arrow for more pages.

The main content area is a table of vehicle listings. The columns are: **photo**, **maker**, **model**, **milleage, km.**, **color**, **model type**, **start**, and **scores**. The table contains several rows of data, including vehicles from **HONDA**, **NISSAN**, **MITSUBISHI**, **DAIHATSU**, and **AUDI**.

A modal window is open in the center of the screen, titled **Add / Remove a field. Make the list of fields.** The modal contains the text: "Here you can make the list of fields, which are necessary for you for work." Below this text is a list of fields with checkboxes:

- [date](#)
- [photo](#)
- [auction](#)
- [maker](#)
- [grade](#)
- [year](#)
- [transmission](#)
- [displacement](#)
- [milleage, km.](#)
- [color](#)
- [model type](#)
- [equipment](#)
- [start](#)
- [end](#)
- [result](#)
- [scores](#)

A **Close** button is located at the bottom right of the modal.

Menu control fields, which are currently displayed in the list of lots

Clicking on Add/Remove fields allows you to search and display different parameters of the vehicle, including preview of images of vehicles.

The function of image display is only available for certain auctions, images cannot be provided if they cannot be seen. Most of the regular auctions provide images but sometimes images are uploaded later than the auction sheet. The best time for searching the vehicles for particular auction is evening time of a day before the auction date.

The auctions data we provide to our clients is constantly updated.

Please note that the start time for the bidding of some auctions updates a day before or on the day of auction. The bidding time mentioned is approximate and sometimes big time difference occurs due to technical reasons.

[See consolidated statistics data](#)

Lot page contains the following data:

1. Auction date of the lot, the name of the auction and the lot number
2. Image of the vehicle and the auction sheet (images can be enlarged when clicked and the images can be moved by pressing and holding the mouse button)
3. Basic information of the vehicle (color, mileage, rating, year of registration, equipment, engine volume, etc.)
4. Additional information of the car
5. Input your bidding amount (amount entered is unit of thousand yen, for example if you enter 11 then the bidding amount will be 11,000 JPY)
6. Block to determine the average purchase price of the vehicle (the calculation of the average price will be more precise if we know the year of manufacture, model name, body type, modification and score)

Please note that the bidding prices of the users who have the status of dealer are sent directly to the rate system. Bidding price of the users who have status of individual is forwarded to the e-mail of their respective manager.

Automobile catalogs

Automobiles catalog serves as a tool to view the configuration and appearance of the vehicle. This catalog is an important source of information for both individuals and dealer.

Auto catalog

[Makers](#) - Search

Basic search

1. Maker: ---All marks--- **2.** Model: ---All models---

3. Model type: **4.** Shift:

5. Year: ~ **6.** Transmission:

7. V engine : ~ cc **8.** Fuel use:

9. Engine power: ~ hp/c **10.** Engine model:

In addition

11. Equipment: PS LSD ABS TRC AC PW LE SR

Search Clear form

The catalog has a form of search of the car with the necessary parameters:

1. Select the maker
2. Select the model
3. Specify the model or grade
4. Select shift type (2WD/4WD)
5. Specify the year of production (you can specify start and end range)
6. Select transmission type
7. Specify the engine volume or capacity
8. Select fuel type (diesel/petrol)
9. Specify power output of the engine
10. Specify the engine model or type
11. Selection of additional equipments can be made (PS [Power steering], LSD [Limited slip differential], ABS [Anti lock braking system], TRC [Traction control], AC [Air conditioning], PW [Power windows], LE [Leather interior/ seats], SR [Sunroof])

Another way is to search by makers.

Auto catalog

- Makers - [Search](#)

Producers

We also have the function of comparison for our clients who want to compare different models before making a purchase. Just click on the ADD button which is in the right of every model. When you add more than two models you can see the COMPARE button in the compare list, just click the button and make any comparison of your choice.

Motorcycle Auctions

Our motorcycle auction is also as unique and exclusive as automobile auction. These auctions are also conducted over a unique network that combines satellite communications and terrestrial lines, similar to that employed in used car TV auctions. We ensure our clients that every motorcycle put up for auction is rigorously inspected and certified, so our buyers can bid with full confidence.

We are sure that you can find bike of your choice from thousands of motorcycles and mopeds auctioned every week.

This search system also contains the maker search, basic search and advanced search which are all designed for professional dealers and beginners.

For **basic search** you can select the maker and model, also specify the registration year, engine displacement/ capacity and color to start your search. Go to SEARCH button (click here to start your search)

For **advanced search** first select the maker and the model, specify the rest of the fields according to your condition. If you do not fill in any particular field, search will include all the options for that field. Go to **SEARCH** button (click here to start your search) or **CLEAR FORM** button (this will reset your selection)

For more details please follow the automobile auction section.

Search

Clear form

For best results – do not set too many options for searching, as it may impose a limit on the number of results matched. Begin the search with several options, and if you find too many matching results then gradually increase the search options.

Motorcycle auctions sold prices (Statistics)

Search motorcycle statistics similar to the search for motorcycle auction and lots of lists and the parameters can be controlled similar to working with the automotive auction system.

To search statistics of motorcycle sold previously in the auction, the process is similar to the search of upcoming motorcycles in the auctions, with the exception of the date of sale of the motorcycle in the auction. You can also input and search through frame number.

Setting your bids and rate control

Our auction system provides simple and easy bidding system for our all users. This is the most important part of the whole bidding process.

Just before explanation of bidding system **please note** that you can bid both as GUEST status or DEALER status. But **your bids will be only processed after the confirmation of your deposit or guarantee money**. Please check thoroughly the details before making any bids. Please contact your sales manager if you need more information to decide your bidding amount.

The screenshot displays a web interface for an auction system. On the left, there are two photographs of a silver Daihatsu Max van. Below the photos is a table with vehicle specifications:

2003	Scores	3.5	Start price	0 000 JPY
52 000	Interior score		Final price	
660	Exterior score		Result	available
AC PS PW				

On the right side, there is a 'Bidding' section with a red border. It contains a 'Your rate' input field followed by ',000 JPY.', a 'Note' input field, and a 'Mail the rate' button. Below the button, it says: 'Pressing this button, you send the order to our manager. Have a good buy!'. Below the bidding section is an 'Average price' section with the following details:

- Company: DAIHATSU
- Model: MAX
- Year: 2003
- Type: L950S
- Scores: 3.5
- Average price: **235 000 JPY**

A link labeled 'See consolidated statistics data' is located at the bottom of the average price section.

After going through the details of a specific vehicle, you must decide the final bidding amount of your vehicle. As you input the bid you can see the **price calculator** below the bidding section. This calculator helps you to determine your bidding amount. You can select RO-RO or container. FOB. C&F (CFR) or CIF for your calculation. When you decide your bidding amount.

please input the figure in the box shown above in red. The amount is 1,000 JPY per unit. For example if you enter 150 then the bidding amount will be 150,000 JPY.

After you make your bid you can confirm it through LATEST BIDS which is available in your client view panel. Even if can see your bids in the LATEST BIDS section they will not be processed until deposit money is confirmed and they **will not be sent to our bidding section** panel. This is **to avoid non-serious customers** and non-serious biddings.

LATEST BID

	Toyota WGH	1212	11	USS TOKYO 2018-01-01	58,000		0	0	
	Toyota WGH	1212	11	USS TOKYO 2018-01-01	58,000		0	0	
	Toyota WGH	1212	11	USS TOKYO 2018-01-01	58,000		0	0	

Please observe the past data and statistics before making your bid because **auction houses do not accept any cancellations** when the auctions are over and the only way to get rid of the vehicle is to re-auction the vehicle which is not in favor of both parties.

Please mind that the bidding amount you enter **will not be the actual amount** while we bid for you, there are chances of crossing your price or leaving it below your specified bidding amount, however we try our best to purchase your car within your bidding amount. This is because in most of the auctions, the bid price increases 1000, 3000, or 5000 JPY on each bid. If you have any special comments regarding your bid then please specify in the NOTE box provided below bidding amount box.
